THE STATE OF THE UNION

Teenagers are one of life's great mysteries.

Whether you're a parent, teacher, or caring adult - there's a sinking feeling that being a teenager is more complex AND more dangerous than it was when we were growing up.

And the quantitative data validates this suspicion. If someone were to give a *State of the Teenage Union Address*, it would be a sobering wakeup call...

3.2M TEENS ARE BULLIED EACH YEAR

1.2M TEENS DROP OUT OF SCHOOL EACH YEAR

90% OF ADDICTS BEGAN USING BEFORE THEY TURNED 18

SUICIDE IS THE SECOND LEADING CAUSE OF DEATH FOR TEENS

HOWEVER, in this tumultuous sea for teenagers, there is one surprising factor that can change the entire narrative.

ONE CARING ADULT

In March 2015, **Harvard's National Scientific Council on the Developing Child** released a study that found that "Every kid who winds up doing well has had at least ONE stable and committed relationship with a supportive adult."

Simply put, every kid is ONE caring adult away from being a success story.

But this is not easy work. Trying to decipher what teenagers are going through and how to help is quite challenging/frustrating/exhausting. It takes work, perseverance, understanding and patience. And it starts with us, the adult.

With your partnership, our message will help millions of kids and caring adults.
